ATTEND THE WORLD'S LEADING ENGINEERED POLYOLEFINS FORUM

Now celebrating 25 years, the Conference is the world's leading automotive engineered polyolefins forum, typically featuring 70+ technical presentations, select keynote speakers, networking, receptions, & exhibits that highlight advances in polyolefin materials, processes, and applications technologies as well as a growing range of thermoplastic elastomers (TPEs) and thermoplastic vulcanizates (TPVs). This year's event is a full live in-person program with some planned virtual elements, promising an even greater global participation. The conference will be held **SEPT. 29-OCT. 2**, at the **Detroit Marriott Troy Hotel** (Troy, MI USA).

PRESENT TO A LARGE GROUP OF DECISION MAKERS IN ENGINEERED POLYOLEFINS

The *SPE TPO Global Automotive Engineered Polyolefins Conference* typically draws over 600 attendees from 20 countries on 4 continents who are vitally interested in learning about the latest in rigid and elastomeric TPO as well as TPE and TPV technologies. A full third of conference attendees work for a transportation OEM, and nearly 20% work for a tier integrator. Few conferences of any size can provide this type of networking opportunity or put you before such an engaged, global audience interested in hearing the latest olefin advances. Interested in presenting your latest research? Abstracts are due **MAY 1, 2024**, and Papers/Presentations on **AUGUST 1, 2024**. Email abstracts/papers to TPOpapers@auto-tpo.com.
