

## 2026 SPE® TPO Global Automotive Conference

### Papers & Presentations Author's Release Form

The SPE® TPO Global Automotive Conference provides a forum whereby the world's leading authorities on thermoplastic polyolefins can present and exchange the latest developments and technology with others in industry. This exchange is conducted through technical papers and presentations delivered during the various Conference sessions (collectively, "Technical Papers").

Technical Papers delivered during the Conference may be recorded and will be made available to all registered conference attendees as part of the Conference proceedings ("Purpose").

Technical Papers will only be used for the 2026 SPE TPO Global Automotive Conference. Written permission from the author is required for any other use.

I authorize the use of my Technical Papers/presentations:

**Titled** \_\_\_\_\_

to the Conference Planning Committee solely for this Purpose, subject to any reservations and disclaimers set forth in such Technical Papers.

**Signature:** \_\_\_\_\_

**Name:** \_\_\_\_\_

**Company:** \_\_\_\_\_

**Please submit completed form to one of your Session Co- Chairs by June 20<sup>th</sup>, 2026.**
